Hello! I am Daniel, an active student in the 6th semester of Informatics Engineering, Tarumanagara University, Jakarta. Even though when I was in high school I joined Computer and Network Engineering, this did not limit me during college from being active and contributing to volunteerism and organizations which created Leadership, Problem Solving and Interpersonal Communication skills. My presence in learning can bring change in a positive direction. I am very enthusiastic about learning new things and new experiences to improve my abilities to be better and work together as a team.
